

Setting Up Germ City Tent

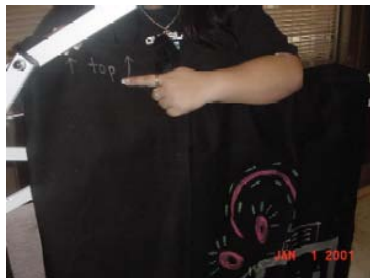

1. **Open the storage case and duffle bag.** Set aside the extension cord from the storage case. Set aside the black fabric cover and black decorated interior panels, and mailing tubes containing the black lights and hand washing posters.

2. **Tent frame.** Open tent frame until fully extended, button on corners will click into place.

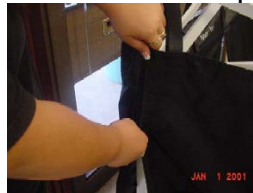

3. **Painted inside panels.** Use the velcro tabs at the top of the painted panel to attach the fabric panels to the tent frame. Face decorated side toward the center of the tent on sides A and C.

4. **Zippered side and door panels.** Attach **side** panels to tent sides A and C with velcro tabs at the top of the panel. Attach **door** panels to sides B and D of the tent with velcro tabs at the top of the door panels.

Zip the side and door panels together at corners about 12 inches. (You will complete zippering sides after the tent poles are fully extended.)

5. **Black lights.** Remove the black lights from the cardboard mailing tubes. Attach the black lights to tent frame, using 2 velcro straps per light. Secure lights to the center of the tent frame on sides A and C.

Velcro straps

Plug black light into the extension cord. (Place extension cord away from area where people will walk to avoid a tripping hazard).

Plug & extension cord

7. **Center roof over top of frame.** Pull cover over each corner before pulling down completely.

8. Extend tent poles. Have a person at each corner. Place foot on tab at bottom of tent pole. Together, extend tent poles until buttons on poles click into place. (Make sure all poles are extended equally. If used outdoors, secure with stakes if the ground is uneven or area is windy.)

button on tent poles

9. Posters. Attach the Hand Washing posters to the front of the exhibit.

Germ City set-up complete.

Taking Down Germ City Tent

To take down tent, basically reverse steps for set up.

- Remove hand washing posters, roll, insert in to small paper tube and place in duffle bag.
- Unzip corners of tent and remove panels and doors of tent. Fold and place in duffle bag.
- To remove lights, unplug from extension cord, hold light securely and remove velcro straps. Place lights and 2 velcro straps in each mailing tube. Replace in duffle bag.
- To collapse tent frame for storage, pull the ring on each pole and push corner piece down. Once 4 sides are released, push towards center.

- Remove roof, fold and place in duffle bag.

- Place tent frame & extension cord in case.

- Place tent germ lotion, soap, stickers, pencils a, clings, pencils, and spray bottle in duffle bag.

Congratulations, you are done!

REMINDER: Please return to the Cooperative Extension Office you borrowed the unit from. Send a summary of the evaluation or Germ City Report to:

Lynn Nakamura-Tengan at lynnnaka@hawaii.edu.
