Germ City: Clean Hands, Healthy People is a school and community-based educational project to enhance awareness and improve effectiveness of hand hygiene.

Schools partners:
- Identify a school-based contact person (teacher, health aide, PCNC, etc.)
- Provide a location with access to an electrical outlet and hand washing facilities (3-6 faucets, soap and paper towels)
- Assist with scheduling class presentations
- Provide 1-2 volunteers/staff
- Obtain signed parental media release and approval for students with special needs*

UH Cooperative Extension:
- Provides the Germ City unit & supplies
- Conducts presentations/training
- Provides access to supplemental materials for classroom or home use
- Technical support
