

Plant List for Native Plant Propagation Workshop
August 10, 2011, Leeward Community College

Seeds		Germination	Ease of	Notes
Common Name	Scientific Name	1- easy 3- hardest	cultivaton 1-easy, 3-hard	
1. naupaka kahakai, also cuttings	<u>Scaevola sericea</u>	1	1	
2. ko'o ko'o lau,also cutting	<u>Bidens amplexans</u>	1	1	
3. "ilima	<u>Sida fallax</u>	1	1	
4. 'uki 'uki	<u>Dianella sandwicensis</u>	1	1	
5. 'ahu'awa	<u>Mariscus javanicus</u>	1	1	
6. ewa hina hina	<u>Achyranthes splendens</u>	1	1	
7. 'akiohala native pink Hibiscus	<u>Hibiscus furcellatus</u>	1	1	
8. 'aweoweo, 'aheahea	<u>Chenopodium oahuense</u>	1	1	
9. ma'o, Hawaiian cotton	<u>Gossypium tomentosum</u>	1	1	
10. ma'o hau hele, Hawn. State flower	<u>Hibiscus brackenridgei</u>	1	1	
11. koki'o ke'o ke'o	<u>Hibiscus waimeae</u>	1	1	
12. koki'o ke'o ke'o	<u>Hibiscus arnottianus</u>	1	1	
13. koki'o ula also cutting	<u>Hibiscus clayi</u>	1	1	

Plant List for Native Plant Propagation Workshop
August 10, 2011, Leeward Community College

14. Orange form of koki'o ula also cutting	<u>Hibiscus kokio</u> subsp. <u>saintjohnianus</u>	1	1	
15. naio, false sandal- wood, also cuttings	<u>Myoporum sandwicense</u>	2	1	can be sporadic in germination
16. Pili grass also division	<u>Heteropogon contortus</u>	2	1	can be sporadic in germination
17. Popolo	<u>Solanum americanum</u>	1	1	widely used in herbal medicine
18. 'ohai	<u>Sesbania tomentosa</u>	1	2	subject to root rot or nematode
19. nanea, beach pea also cuttings	<u>Vigna marina</u>	1	1	
20. pua kala	<u>Argemone glauca</u>	2	1	can be sporadic in germination
21. kou	<u>Cordia subcordata</u>	1	1	
22. alahe'e	<u>Psydrax odoratum</u>	1	1	
23. nanu, na'u, native gardenia also as cuttings	<u>Gardenia brighamii</u>	1	1	
24. 'anapanapa also as cuttings	<u>Colubrina asiatica</u>	1	1	
25. kauila	<u>Colubrina oppositifolia</u>	1	2	subject twig borer at maturity
27. a'ali'i	<u>Dodonaea viscosa</u>	1	1	

Plant List for Native Plant Propagation Workshop
August 10, 2011, Leeward Community College

28. lonomea, aulu	<u>Sapindus oahuensis</u>	1	1	
29. loulu	<u>Pritchardia spp.</u>	3	1	special requirements for germination
30. 'ohi'a	<u>Metrosideros tremuloides</u>			found only on Oahu
31. 'akia	<u>Wikstroemia uva-ursi</u>			male and female plants, female has berries, very drought tolerant
32. Native Maiden-hair fern	<u>Adiantum cappillus-veneris</u>			
33. Moa - whisk "fern"	<u>Psilotum nudum</u>			not a true fern, spore bearing
34. Okupukupu	<u>Nephrolepis exaltata subsp. hawaiiensis</u>			
Cuttings	Scientific Name	Success	Ease of	Notes
Common Name		1-good 3-hard	cultivaton 1-easy, 3-hard	
1. 'ae'ae, Water Hyssop	<u>Bacopa monnieri</u>			
2. ihi 'ihilauakea.	<u>Marsilea villosa</u>			Is an endangered fern
3. Pa'u o hi'iaka	<u>Jacquemontia ovalifolia subsp. sandwicensis</u>			
4. pohinahina	<u>Vitex ovata</u>			
5. 'ulei	<u>Osteomeles anthyllidifolia</u>			nice on slopes, drought tolerant
6. Hunakai	<u>Ipomoea imperati</u>			very drought tolerant ground cover
7. 'ilie'e	<u>Plumbago zeylanica</u>			VERY drought tolerant, almost invasive
